DESIGN & SUPPLY

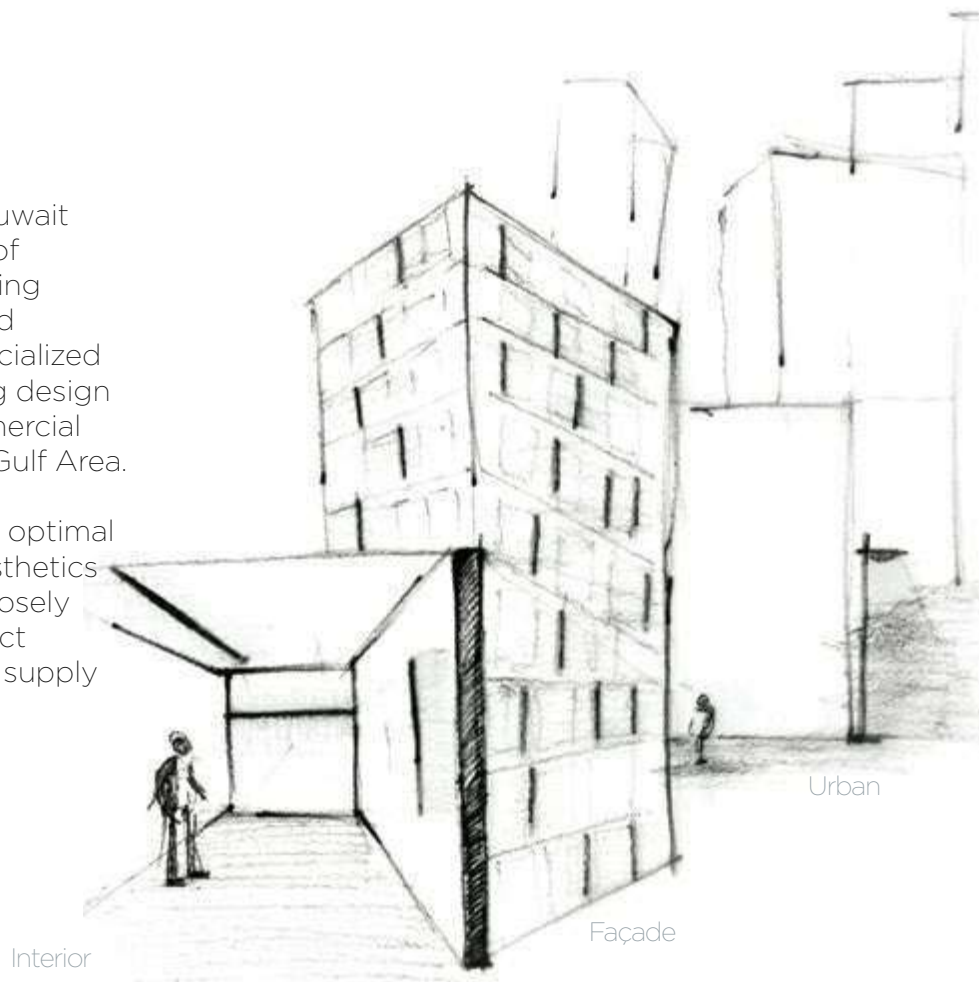

REV: 01/24

L I G H T I N G

DIB Lighting is based in UAE, Kuwait and Lebanon and is composed of a multi-disciplinary team of lighting designers, product designers and electrical engineers who are specialized in providing architectural lighting design services to residential and commercial projects in the Middle East and Gulf Area.

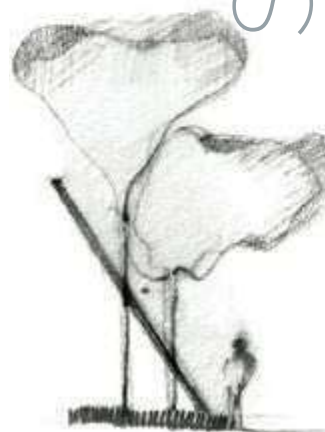

Our philosophy is to achieve the optimal lighting scheme by marrying aesthetics and functionality and working closely with our clients through all project phases: from concept to design, supply and implementation.

Interior

Façade

Urban

Landscape

SERVICES

Our process goes through 4 stages:

Stage 1 - **Concept**

Understanding clients' needs through a close dialogue with the client/designer and DIB team. An initial concept is then developed consisting of the lighting layout, sketches, types of fixtures and estimated budget.

Stage 2 - **Design Development**

Developing the final layout, detail design, fixtures' specifications, lux count if judged necessary and final budget.

Stage 3 - **Supply**

Supplying the lighting fixtures with technical specifications fitting the relevant design.

Stage 4 - **Implementation**

Liaising with the electrical contractor on site to ensure the proper installation.

Products

We work with the latest products' trends and technologies available in the lighting field. In addition to that, we coordinate closely with the client to develop if needed customized lighting fixtures for specific projects.

Since the product design process is part of our ongoing daily activities, we also develop products not related to lighting fixtures.

Title of work Al Tujjar Tower
Type of building Offices
Design Studio Babnimnim
Location of work Kuwait
Year of completion 2022

Inverted triangles of diffused light sliced through the ceiling, Each facet shifted subtly, mimicking the city's pulse outside, while recessed LED strips traced the sharp angles, guiding the eye across collaborative pods and sleek workstations.
The crisp light banished dullness, yet its warmth invited focus, creating a workspace both dynamic and serene.

Title of work Al Tujjar Tower
Type of building Offices
Design Studio Babnimnim
Location of work Kuwait
Year of completion 2023

The existing linear structures of the façade were the key behind our concept. The existing vertical tubes will start twisting and turning from their vertical state to diagonal and even horizontal state forming a rhythmic dancing lighting installation with light sources hiding within.

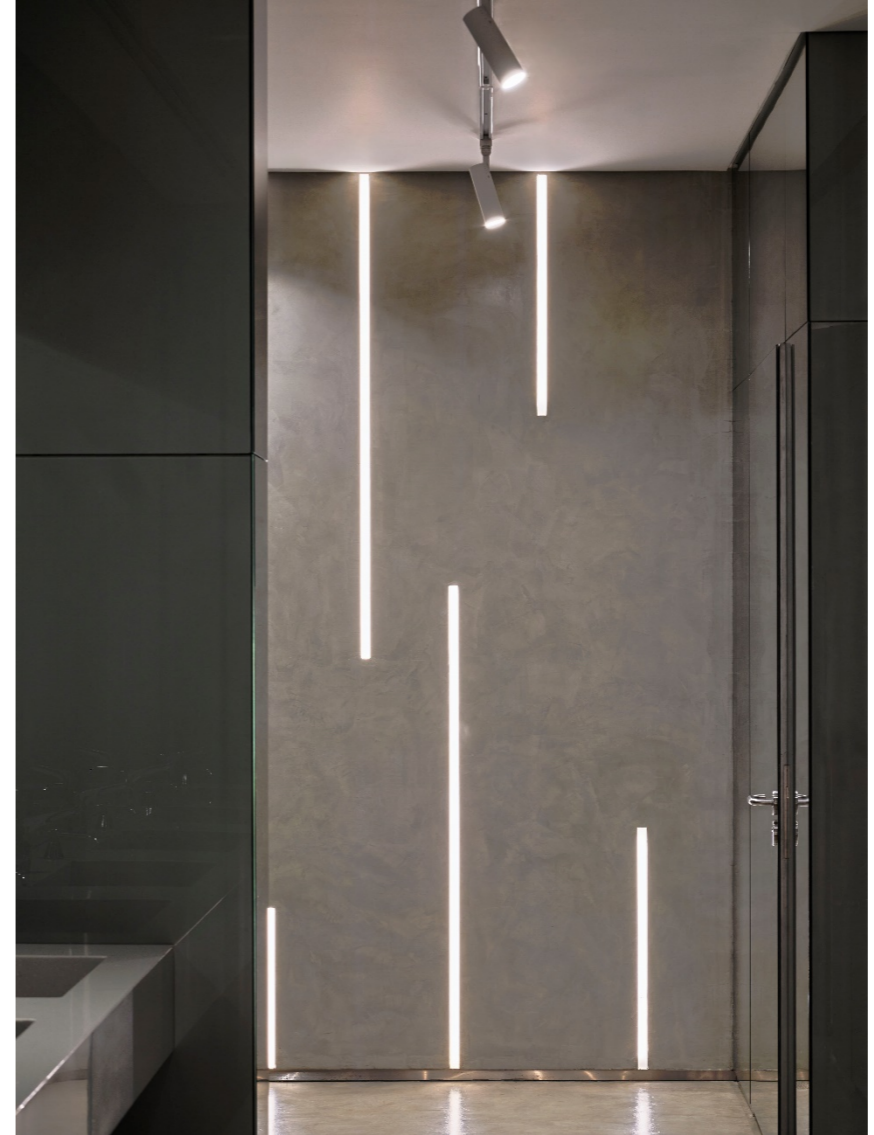

Title of work Andalus
Type of building Retail
Consultant SSH
Location of work Kuwait Year
of completion 2023

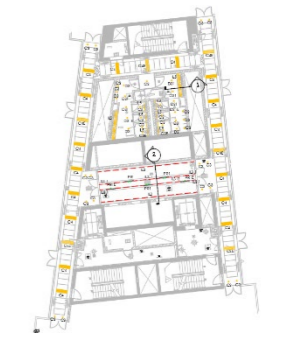

The space follows an inclined
circulation axe similar to a circuit
which is more interesting to discover
bit by bit rather than having
everything revealed all at once. Our
objective is to give a unique dramatic
experience to visitors creating a
scenography in the space that will
transform a flat image into a livelier
piece of art.

Title of work Andalus Cinemas
Type of building Retail
Consultant SSH
Location of work Kuwait
Year of completion 2023

Layout

Title of work **Andalus Cinemas**
Type of building **Retail**
Consultant **SSH**
Location of work **Kuwait**
Year of completion **2023**

CONCEPT

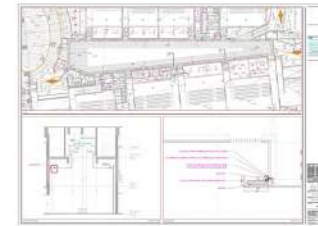

Sacred geometry, the underlying geometric pattern of nature assigns symbolic meanings to the shapes of proportions. We use light to focus and unify the physical, emotional and mental states of visitors through a gridwork of sacred geometry.

Layout

details

Title of work **Ajial Offices**
Type of building **Offices**
Consultant **PAD10**
Location of work **Kuwait**
Year of completion **2021**

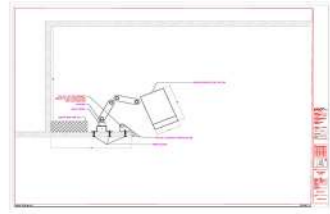

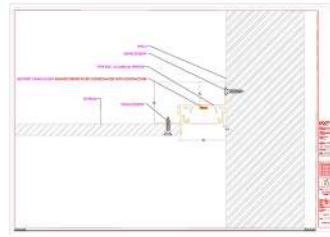

CONCEPT
We created a lighting concept that uses hidden lights and lines to create a sense of depth and movement, mystery, intrigue order and structure.

Layout

Title of work **Ajial Offices**
Type of building **Offices**
Consultant **PAD10**
Location of work **Kuwait**
Year of completion **2021**

Title of work **Hajer Villa**
Type of building **Residential**
Architect **Croquis / Design One**
Location of work **UAE**
Year of completion **2022**

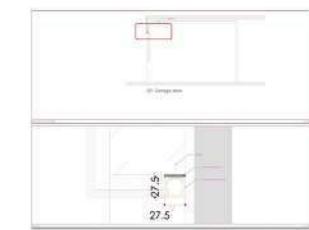

CONCEPT
In order to keep the ceiling clean we used linear lights that enhance the visual space

Layout

detail

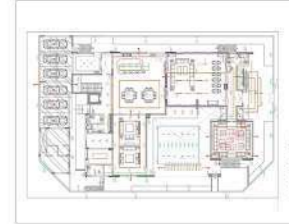

Title of work **Hajer Villa**
Type of building **Residential**
Architect **Croquis / Design One**
Location of work **UAE**
Year of completion **2022**

CONCEPT

Used the glass as open material to light the facade from inside to the outside and highlighting the different volumes of the facade and materials by highlighting the openings and differences between them

Layout

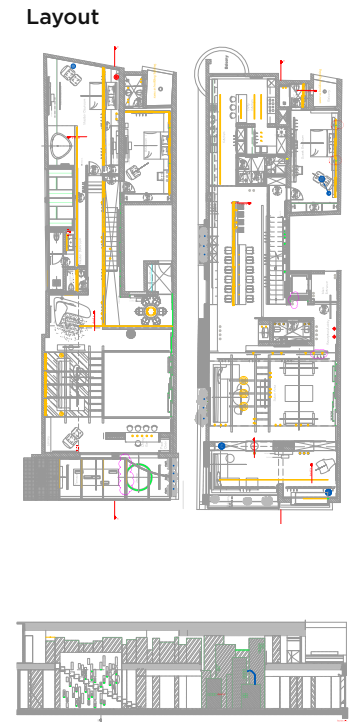

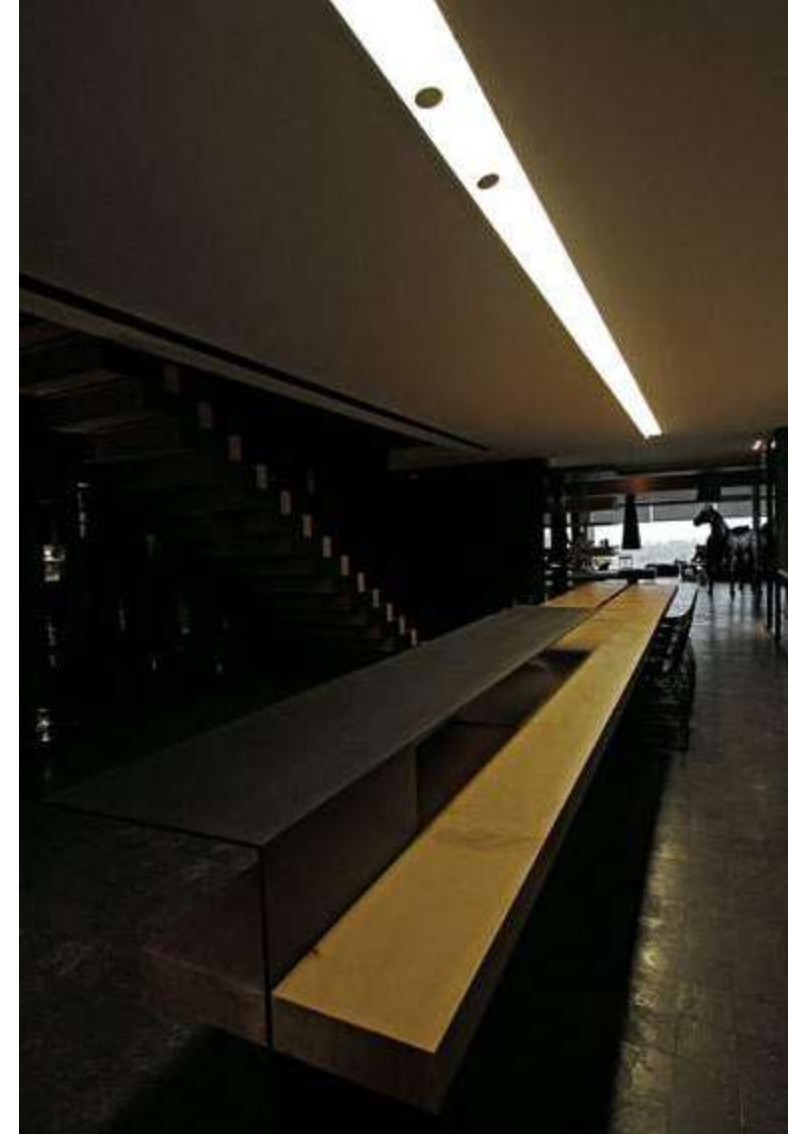

detail

Title of work **Private Residential**
Type of Space **Residential**
Architect **Walid Asmar, Le Cercle**
Location of work **Lebanon**
Year of completion **2014**

CONCEPT
A modern minimalistic linear ambient light connect the spaces following the spirit of the penthouse succeeding the furniture and the architecture. Accent light was used to enhance the warmth and coziness effect in this double height mirroring the outstanding view of the city we have

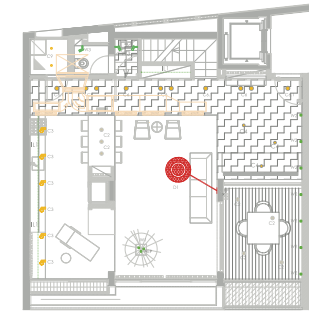

Title of work **Private Duplex**
Type of Space **Residential**
Architect **Haig Papazian**
Location of work **Lebanon**
Year of completion **2013**

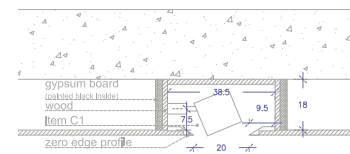

CONCEPT
In order to keep the ceiling of the double volume clean from lighting fixtures, we created a groove and hid the lighting inside. As a result, the entire double volume was illuminated.

Layout

Detail

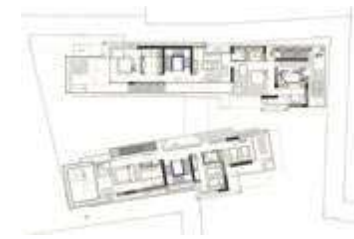

Title of work **Villa Kali**
Type of Space **Residential**
Architect **BLANKPAGE**
Architects + Karim Nader
Location of work **Lebanon**
Year of completion **2016**

CONCEPT
Discreet lights sculpt the geometry of this beach house and accentuate the minimal architecture.

Layout

Detail

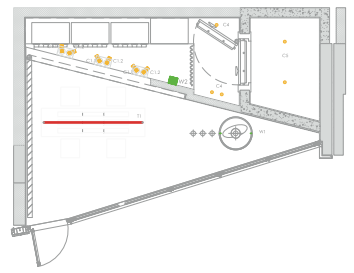

Title of work **Mouzannar Jewelry**
 Type of Space **Retail**
 Architect **Apractice studio**
 Location of work **Lebanon**
 Year of completion **2012**

CONCEPT

A jewelry store located at Zaitunay Bay is illuminated by incorporating all the lights inside the mannequin capsule thus keeping the ceiling of the store clean from all lighting fixtures. To illuminate the table showcasing the jewelry, we incorporated in it a dynamic custom made lighting.

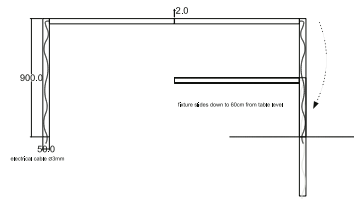

Layout

Title of work **Nagwa Shop**
 Type of Space **Retail**
 Architect **Lines**
 Location of work **Kuwait**
 Year of completion **2014**

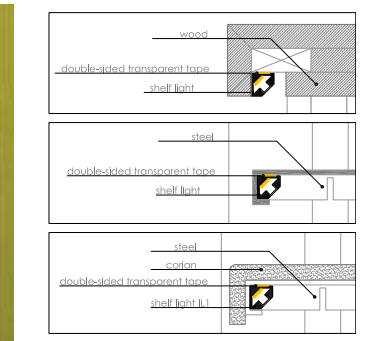

CONCEPT
 Taking the main concept of the shop (Artisan Oriental sweets made with the hail and safron.) A repetitive suspension inspired by this shape & pattern used for ambient light throughout the whole space following the functionality. A layer of directional lighting solution for the display of products.

Layout

Section Detail

Title of work **Coiffured Spa**
Type of Space **Retail**
Architect **Attune**
Location of work **Kuwait**
Year of completion **2016**

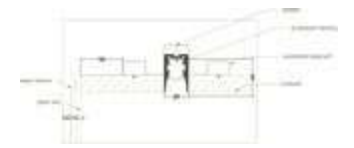

CONCEPT
Following the design of this spa which is inspired by the Japanese zen garden with its use of pebbles and dark calming colors, the lighting follows the architecture and accentuates the floating islands and functional areas only while also incorporating custom-made bamboo shaped fixtures that follow the general mood of the space.

Layout

Detail

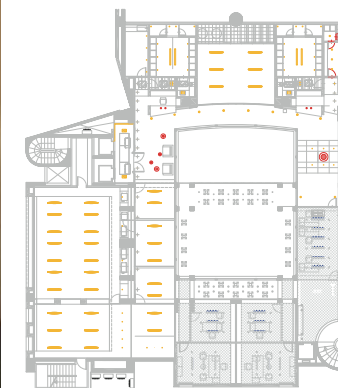

Title of work **Health Club**
Type of Space **Retail**
Architect **Archika**
Location of work **Lebanon**
Year of completion **2012**

CONCEPT

With a level distribution of light among the entire workout area with elliptical fixtures, this health club was lit to create a suited environment for exercising. To accent the mirrors and the curved corridor, directional protruding downlights were used to highlight these features. The line of sight from the entrance of the health club ends with the view of the custom made fixture that was fixated across the void.

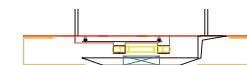

Layout

Plan

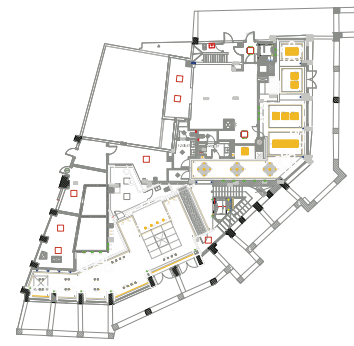

Title of work **Boutique Hotel**
Type of Space **Retail**
Architect **Decorelle**
Location of work **Qatar**
Year of completion **2012**

CONCEPT
Continuing with the arabesque theme of this boutique hotel, we customized a lighting fixture with similar arabesque perforations that gave the space a unique shadow and light effect.

Layout

Ground Floor

Roof Level

Title of work **Private Office**
Type of Space **Offices**
Architect **BUS architects**
Location of work **Lebanon**
Year of completion **2014**

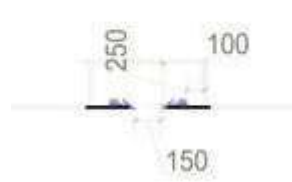

CONCEPT
An office space that uses a rhythm of irregular ambient lights in the circulation areas to radiate a dynamic feeling that leads to the work-spaces.

Layout

Detail

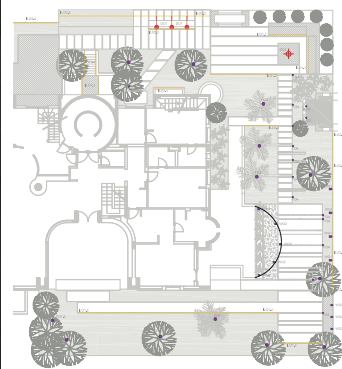

Title of work **Private landscape**
Type of Space **Landscape**
Architect **Some Existing Trees**
Location of work **Lebanon**
Year of completion **2013**

CONCEPT
The landscape consists of a pathway with linear lines. We lit the space by connecting visually the linear lines of the pathway with vertical lines through using spotlights and projectors at the end of these lines.

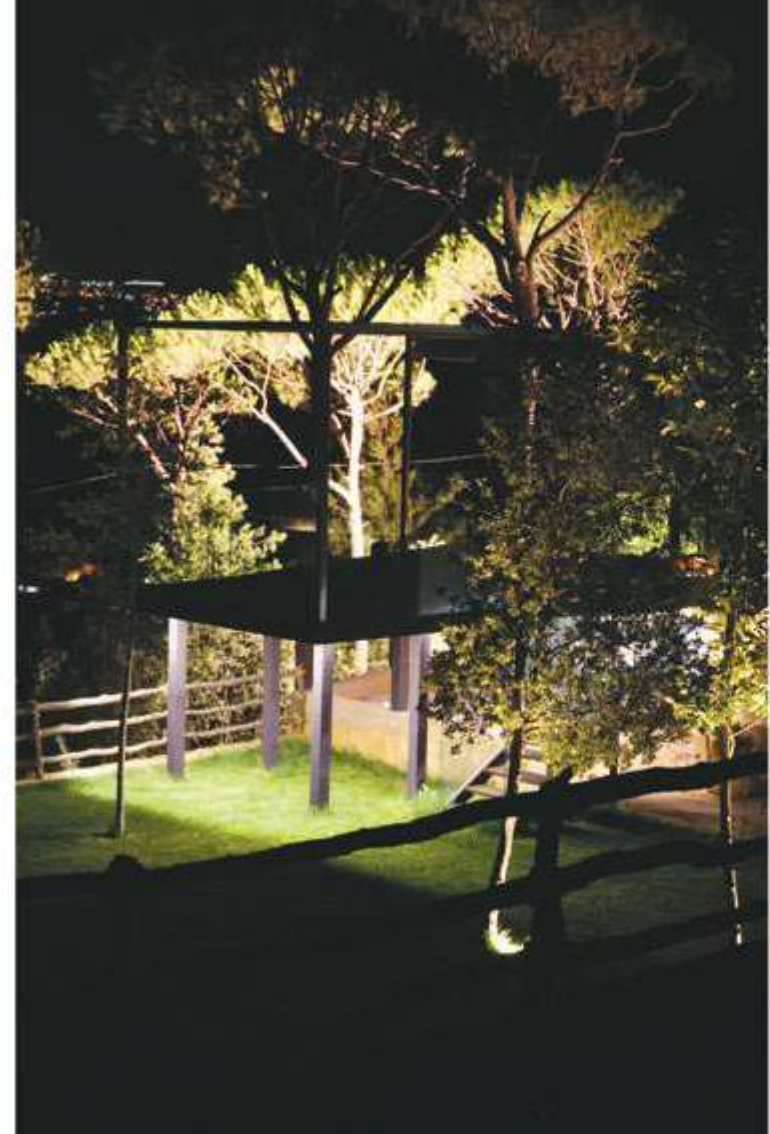

Layout

Title of work **Baabdat landscape**
Type of Space **Landscape**
Architect **Diyar consultants**
Location of work **Lebanon**
Year of completion **2012**

CONCEPT
The garden's beauty was accentuated by highlighting the different levels of the garden with linear wall wash lights, and by lighting the tree trunks, the stairs and by giving the patio a floating effect.

Layout

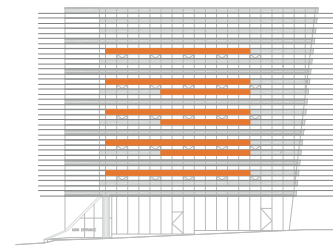

Title of work **Mina Tower**
Type of Space **Elevation**
Architect **Apractice Studio**
Location of work **Lebanon**
Year of completion **2014**

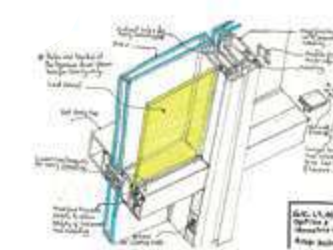

CONCEPT
Following the striations of the building, we wanted to incorporate linear lights on the façade. This was accomplished by the use of light panels integrated on the windows, as well as linear profiles on the adjacent façade.

Layout

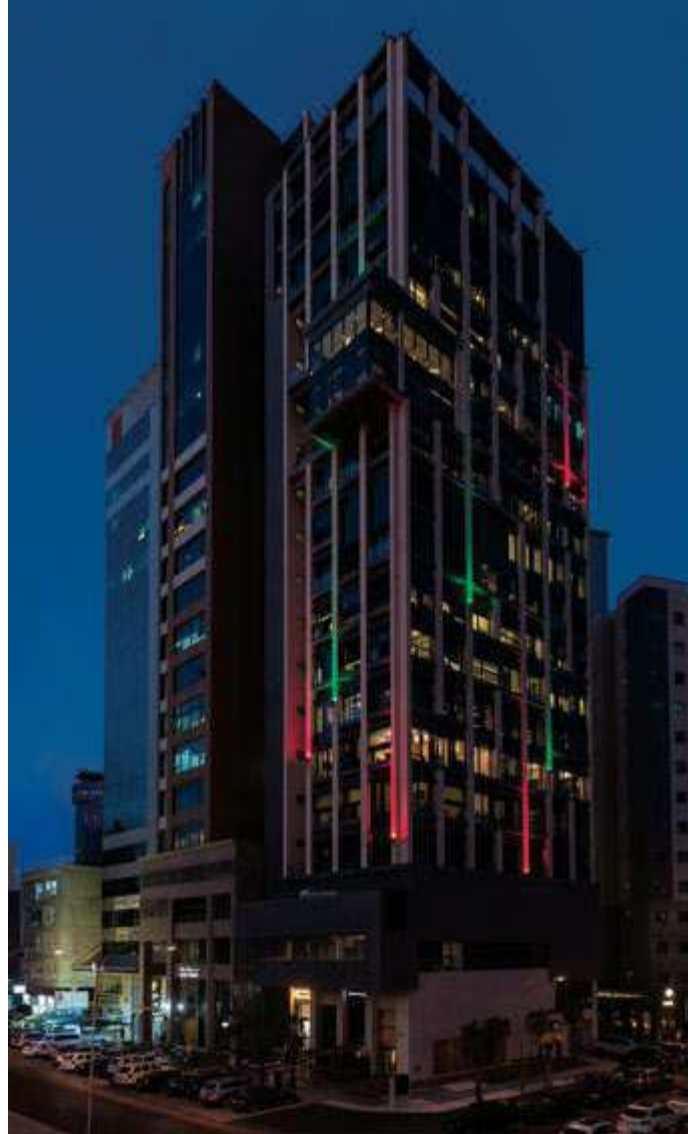

Section

Title of work **Letter Tower**
Type of space **Elevation**
Architect **Lines**
Location of work **Kuwait**
Year of completion **2016**

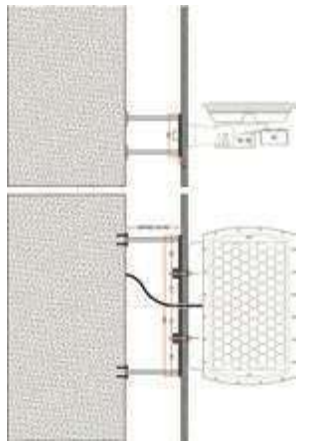

CONCEPT
The lighting follows the architecture of this office building by using color changing narrow beams to accentuate the verticality of the building.

Layout

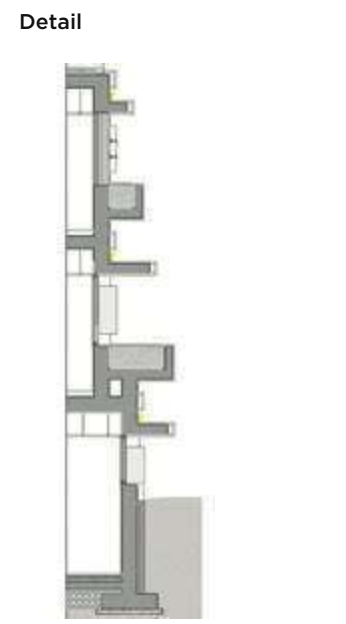

Detail

Title of work **Villa Kali**
Type of space **Elevation**
Architect **BLANKPAGE**
Architects + Karim Nader
Location of work **Lebanon**
Year of completion **2016**

CONCEPT
Discreet lights sculpt the geometry of this beach house and accentuate the minimal architecture.

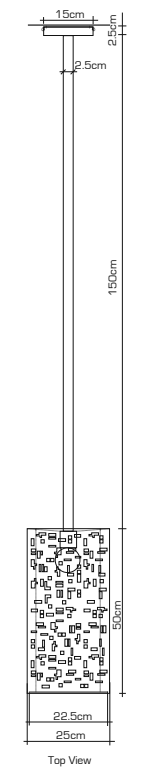

Title of work **AL HAMBRA**
Type of Space **Custom Made**
Architect **Diyar Consultants**
Location of work **Lebanon**
Year of completion **2012**

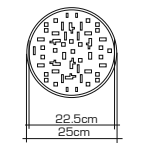

CONCEPT
It was all about keeping it simple with a big effect. By using a perforated cylinder that gave us a source of light and shadow, we were able to turn this arabesque lighting fixture into a piece of art, giving all the space a defined identity.

Custom

Bottom View

Title of work **SEA VIEW**
 Type of Space **Custom Made**
 Architect **Lines**
 Location of work **Kuwait**
 Year of completion **2014**

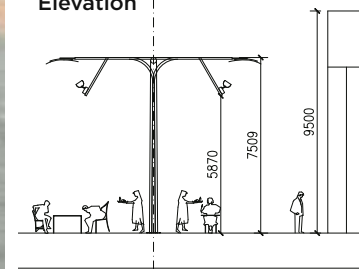

CONCEPT
 Sea view is an avenue of restaurants next to the sea, with a common courtyard for all the shops' seatings. We united these seating areas by constructing a metal structure in an organic matter that resembles the sting ray fish.

Layout

Elevation

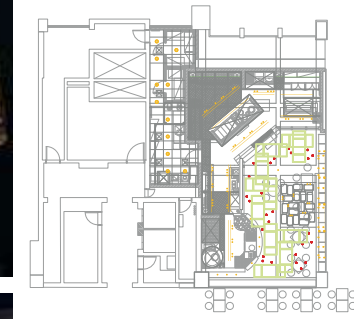

Title of work **Dakakeen**
Type of Space **Custom made**
Architect **Lines**
Location of work **Kuwait**
Year of completion **2014**

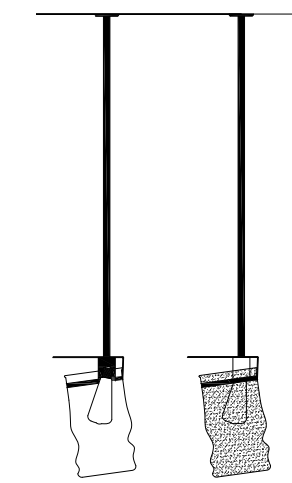

CONCEPT
Blending the traditional with the modern, we developed a jar lighting fixture that consists of hand-blown glass that integrates the Thomas Edison vintage filament bulb on the lower part of it while the upper part an inclined bracket in a modern shape consisting of stainless steel

Layout

Custom Made Fixture

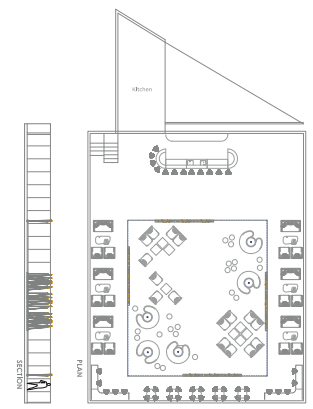

Title of work **BAMBOO**
Type of Space **Custom Made**
Architect **Sahar Minkara**
Location of work **Lebanon**
Year of completion **2014**

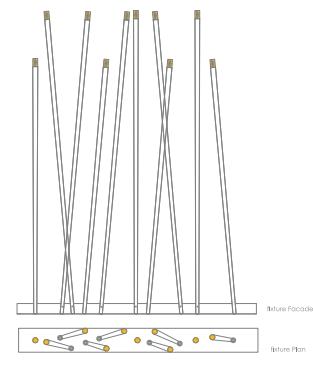

CONCEPT
BAMBOO is a modern lighting fixture that was inspired by seaweed; the long poles upon which the tubular lights are mounted sway gently in the breeze, creating a sense of perpetual movement while its see-through nature allows for the stunning sea views to remain uninterrupted. At once private, yet open, the seating area on the rooftop is both deeply intimate and bathed in light.

Layout

Custom Made Fixture

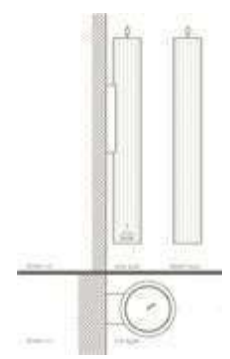

Title of work **BOUGIE**
Type of Space **Custom Made**
Architect **Blankpage Architects**
Location of work **KN Loft**
Year of completion **2013**

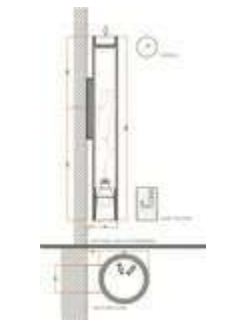

CONCEPT
The applique BOUGIE, at once high & low-tech, integrates a narrow beam electrical spotlight below and a wax candlelight above. The wall hung steel cylinder hides both sources of light that appear to float and levitate. The result, an intersection of age-old mystical warmth and contemporary technology that integrates in interiors of various feels.

Elevation

Section

Title of work **CLOCHETTE**
Type of Space **Custom Made**
Architect **Blankpage**
Location of work **Lebanon**
Year of completion **2015**

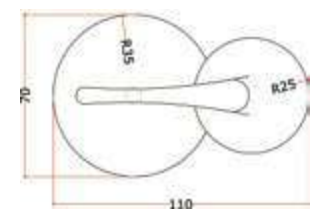

CONCEPT
CLOCHETTE, a bell-shaped
fixture that highlights the
smallest of details.

Detail

Plan

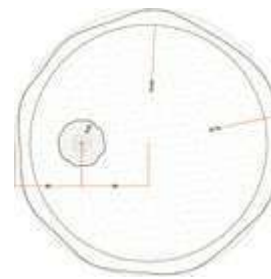

Title of work **NENUPHAR**
Type of Space **Custom Made**
Architect **Blankpage Architects**
Location of work **Al Khalil Residence**
Year of completion **2014**

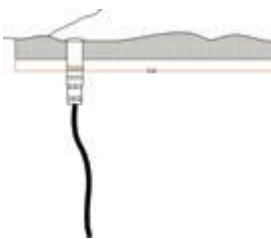

CONCEPT
Inspired by the lotus leaf, this floating handmade copper sheet with diffused LED light creates beautiful light reflections on water.

Plan

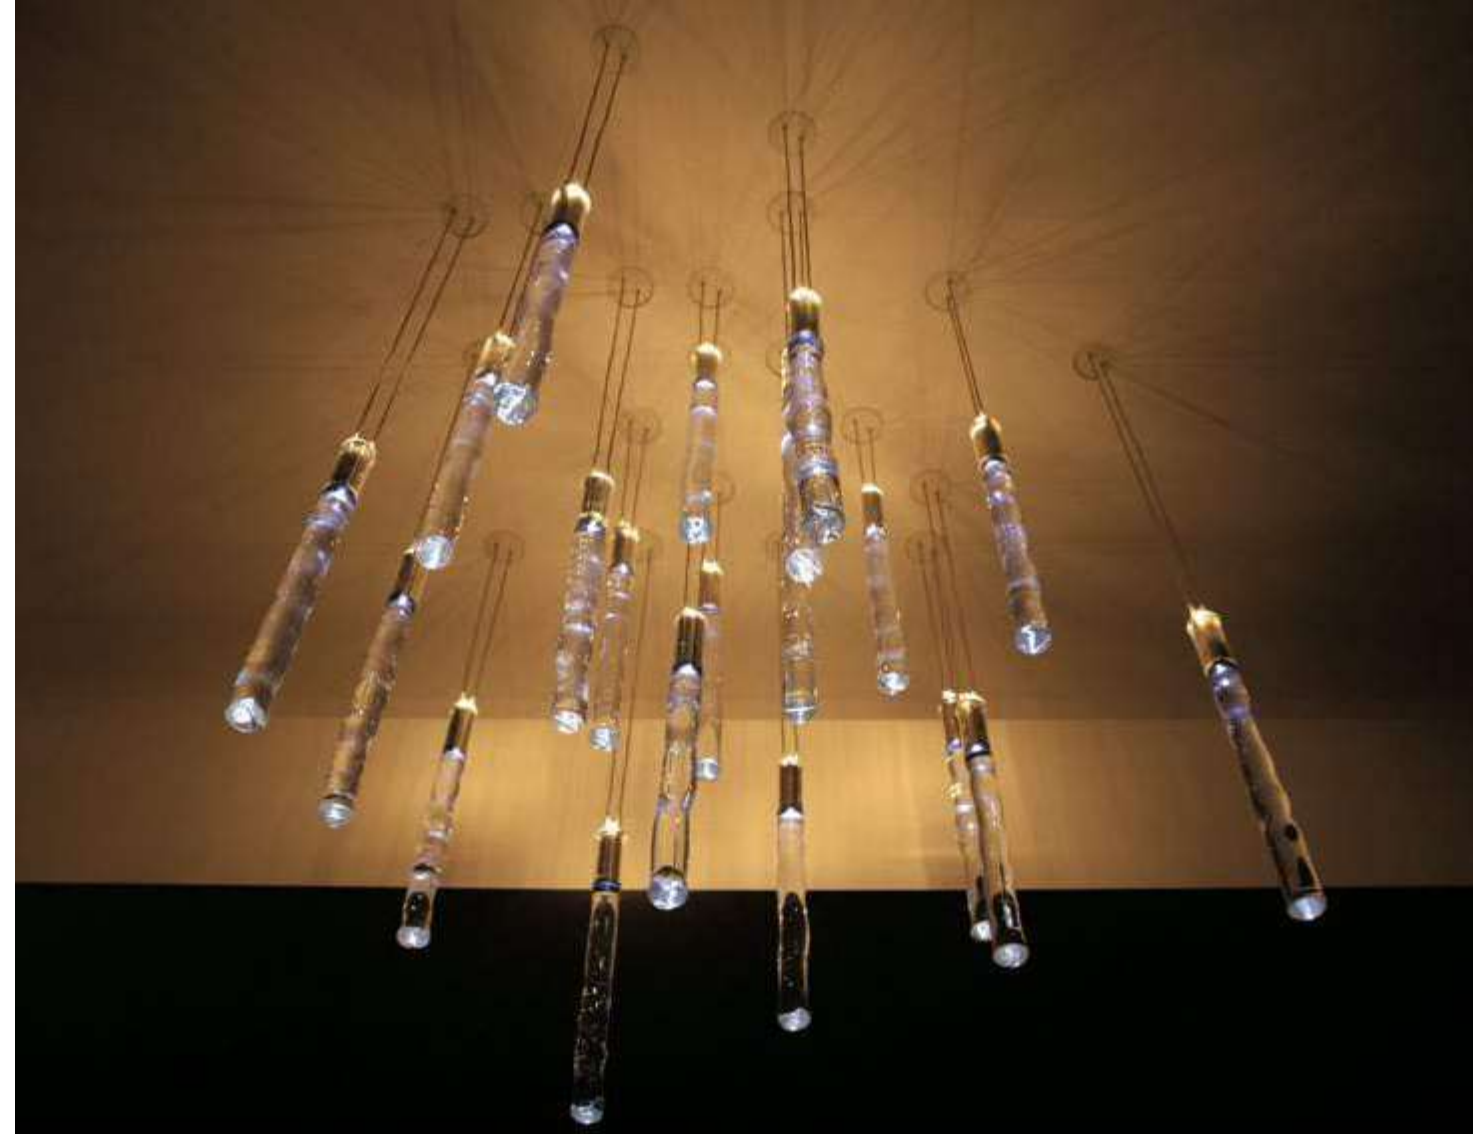

Section

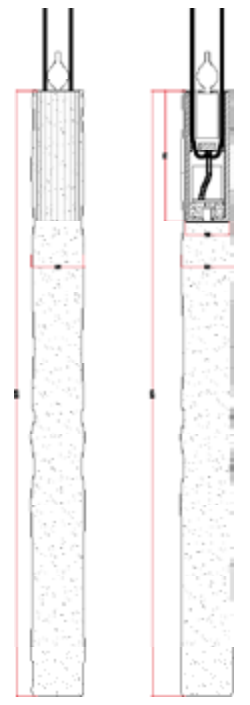

Title of work **FLAME**
Type of space **Custom Made**
Architect **BLANKPAGE**
Architects + Karim Nader
Location of work **Lebanon**
Year of completion **2017**

CONCEPT
A hand-made glass and stainless steel fixture inspired by floating candles that glows and illuminates the space.

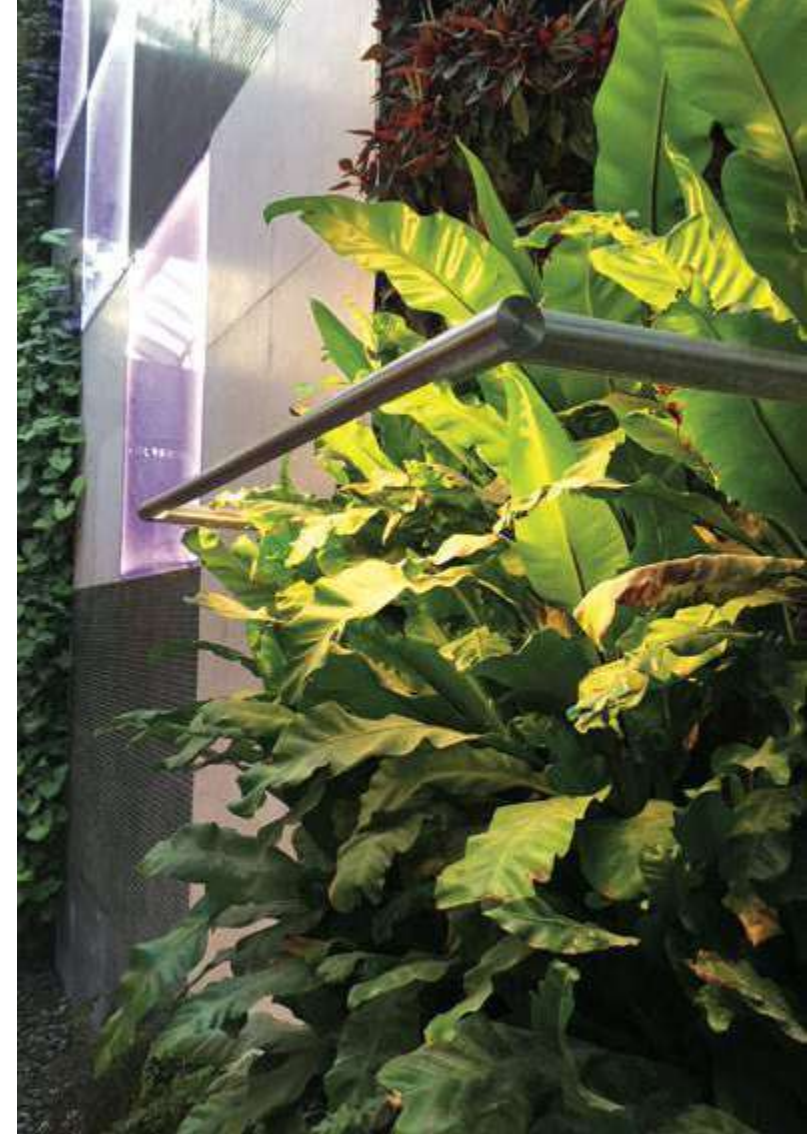

Detail

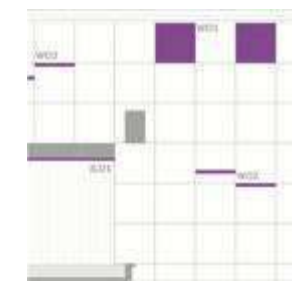

Title of work **Al Raya Plaza**
Type of Space **Custom Made**
Architect **Green Studios**
Location of work **Cairo**
Year of completion **2014**

CONCEPT
An intervention done on the 100 meter green wall of a shopping complex in Cairo, providing a colorful array of customized light panels and stainless steel fixtures to highlight the greenery.

Elevation

Detail

Title of work **Phil & Joe**
Type of Space **Custom Made**
Architect **Bachir Nader**
Location of work **Lebanon**
Year of completion **2015**

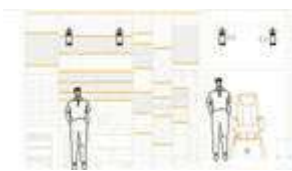

CONCEPT
The vintage feel of this barber shop is continued by the use of industrial-looking fixtures connected together via pipes.

Plan

Section

Title of work **Phil & Joe - Gemmayze**
Type of Space **Custom Made**
Architect **Bachir Nader**
Location of work **Lebanon**
Year of completion **2015**

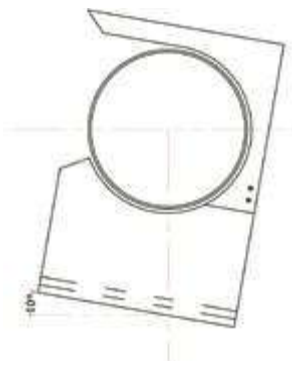

CONCEPT
For this vintage barber shop we use canale an industrial metal fixture that is fixed around air ducts and gives accent light to the space.

Plan

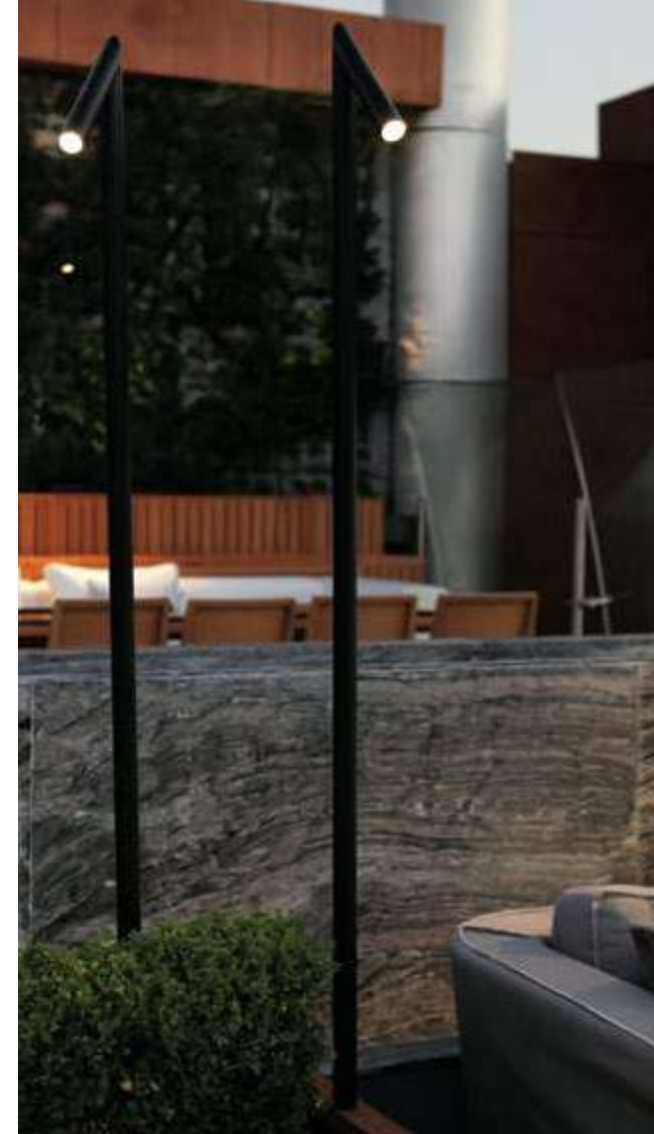

Section

Title of work **TUYAU**
Type of Space **Custom Made**
Architect **Moni Fattal**
Location of work **Lebanon**
Year of completion **2015**

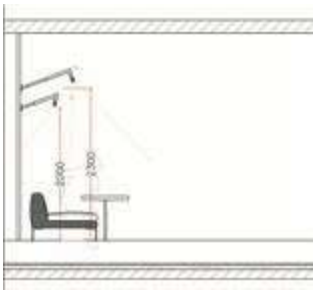

CONCEPT
Inspired by tree branches, the custom made wall and floor fixture TUYAU illuminates its surroundings at different angles.

Layout

Detail

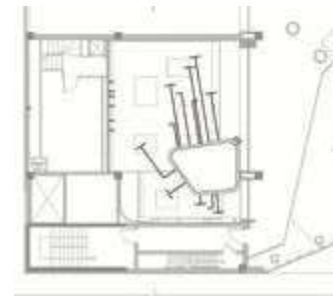

Title of work **STALACTITE**
Type of Space **Custom Made**
Architect **Babnimnim**
Location of work **Kuwait**
Year of completion **2018**

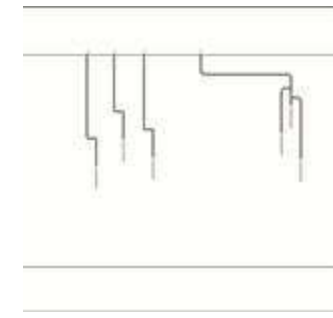

CONCEPT
The lighting concept of this café was inspired by their specialty dessert, the Affogato, where hot espresso is poured over ice cream, creating veins of coffee over it. This melting movement was realized in the form of steel structures which carry glass tubes that illuminate the space.

Layout

Detail

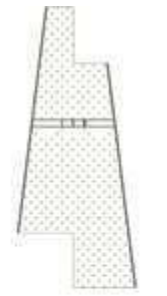

Title of work **CONNEAU**
Type of Space **Custom Made**
Architect **Babnimnim**
Location of work **Kuwait**
Year of completion **2018**

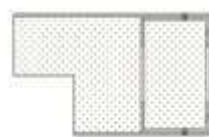

CONCEPT
Giving a twist to simple geometrical shapes by splitting them in half and repositioning them.

Ceiling light

Wall light

Title of work **Zwara**
Type of Space **Installation**
Architect **Lines**
Location of work **Kuwait**
Year of completion **2015**

CONCEPT
Recreating the Diwaniya
tent in a modern way by
installing colorful yarns in
the space that mimick the
same effect.

Layout

Section

Title of work **LA FEUILLE**
Type of Space **Installation**
Architect **Moni Fattal**
Location of work **Lebanon**
Year of completion **2015**

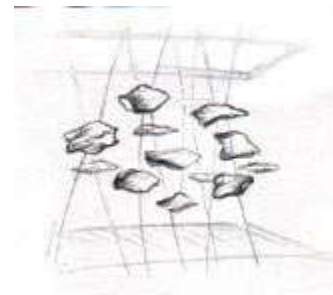

CONCEPT
To connect sky and ground,
art and light, LA FEUILLE
was created, with its leaf-
like brass plates floating in
space.

Layout

Perspective

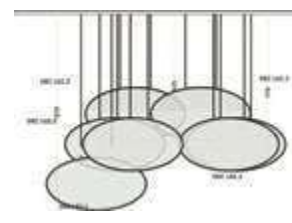

Title of work **CERF VOLANT**
Type of Space **Installation**
Architect **Blankpage Architects**
Location of work **Lebanon**
Year of completion **2015**

CONCEPT
We create an allure of light and shadow in the environment by designing this custom made fixture using Japanese rice paper that filters light through itself and into its surroundings.

Front view

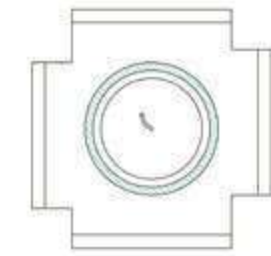

Title of work **LAVA**
Type of Space **Industrial Design**
Architect **Blankpage Architects**
Location of work **Lebanon**
Year of completion **2016**

CONCEPT
LAVA is a decorative candle holder that finds the softer side of rigid elements and creates a molten effect inside the fixture, while projecting streaks of light on the ground.

Layout

Detail

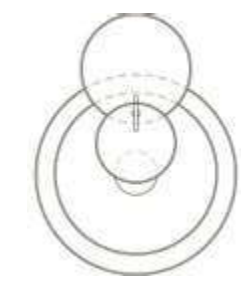

Title of work **TEA HEATER**
Type of Space **Industrial Design**
Architect **Lines**
Location of work **Kuwait**
Year of completion **2015**

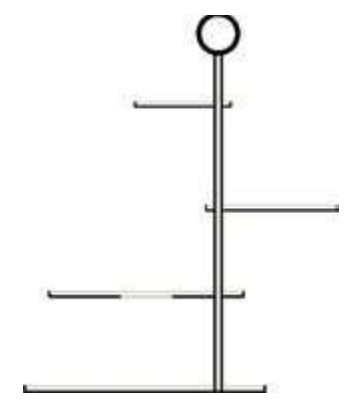

CONCEPT
Combining multiple functionalities in one element, this tea heater warms the Dalla pot while also serving as a place to put tea cups and food bites.
